Matt,

Heather [REDACTED] claims to have received psychic information about the disappearance of Ray. She lives in Penns Valley and the tip came through Tpr. Sam DERUGEN. I told Sam I would pass along the information to you and you can make the call on whether you want to call her or not. Apparently, she just has sketchy details as do most psychics. She claims that two men from Bellefonte strangled Ray and buried him along the river. They drove a white p/u and a girl associated with them knows what they did. She lives in Bellefonte. That's all I got.

Joe
