On 19 May 2006 at 2245 hours I was asked to call Nancy [REDACTED] at [REDACTED]
Nancy [REDACTED] is from North Carolina.

I called Nancy and she told me she had some information concerning Ray Gricar. Nancy said that she had taped the NBC Dateline program and just got around to watching it tonight and saw the Gricar story. Nancy asked me not to think she was some kind of weirdo, but she gets visions of things some times. Nancy went on to explain that after watching the Gricar story she had some very vivid and strong visions of 3 or 4 very rough looking biker guys threatening Ray or his girlfriend Patty. Nancy said that Ray may have been investigating these men or their gang and when they threatened him or Patty, he backed off. These men arranged for Ray to meet with them in Lewisburg and the men took Ray from Lewisburg and killed him. She said she knew the smell of cigarette smoke in Ray's car was from these men. Nancy said the men burned Ray's body in a rusty burning barrel, typical of the backyard type burning barrels. She said there would be nothing left of Ray with the exception of maybe teeth or bone fragments. Nancy believes one or more of these men may have in his possession some of Ray's belongings, such as jewelry or something similar. Nancy believes that Ray knew these men and these men knew Ray fairly well.

Nancy was a very polite and serious person. She was very interested in being able to help and appreciative of me taking the time to talk to her.
